

75th Anniversary Commemorative Lighter

In 2007, Zippo will mark three-quarters of a century as the world's most dependable source of portable flame. To commemorate this milestone, Zippo has created two collectible lighters that will be available only through the anniversary year.

In celebration of Zippo's 75th Anniversary, this lighter was produced for worldwide distribution. Dramatic two-tone laser engraving embellishes Zippo's classic high polish chrome finish, and identifies the lighter as a genuine 75th Anniversary commemorative.

The collectible lighter is pillowed in black satin in an embossed self-display box.
